

Site Environmental Awareness Training Scheme (SEATS)

Who should attend?

- Site Managers and Site Supervisors involved in any building project of any size
- Decision makers for any duty holder in the construction industry – Clients, Designers, Principal Contractors and all trade organisations.
- Anyone responsible for ensuring a level of Environmental Awareness in their supply chain
- Anyone with a level of environmental responsibility – from SHE advisors to Net Zero ambassadors

Course content

This course is split into the following 9 modules to deliver essential knowledge and understanding of:

- Sustainable construction and the environment
- Environmental management systems
- Archaeology and heritage
- Ecology and biodiversity
- Statutory nuisance
- Water management and pollution control
- Resource management
- Soil management and contamination control
- Waste and material management

For a full course programme – please see the next page

Assessing learning outcomes

- Continual assessment throughout the course which results in a tutor assessment mark that must be passed.
- 30 minute end-of-course exam which is a combination of multiple choice and short answer questions.

Course duration

- 1 day

Refresher training

- Certification will need to be renewed after 5 years

Please bring

- Just yourself, we will provide everything you need on the day

Publication(s)

- CITB publication GE700Es is included with the course
