

# Site Supervisors Safety Training Scheme (SSSTS)

## Who should attend?

- This course is aimed specifically at site foremen and supervisors of any trade on any site from the smallest of refurbishments or extensions to the largest of multi £million projects.
- This course is a requirement of BUILD UK training standards and is recognised throughout the industry as the appropriate training level for site supervisors.
- Supervisors have many questions, we will answer these and many more during this engaging, lively, 2-day course.

## Course content

- This course will give those who have direct control over site safety the tools they need to look after their team. We will answer these and many more questions...
- Just how much responsibility do I have?
- What is CDM and how does it affect me?
- What is a toolbox talk and how do I give one?
- What do I need to know about safety issues?
- What do I need to know about health?
- What happens if there's an accident?
- For a full course programme – please see next page

## Assessing learning outcomes

- There will be continual assessment throughout the course, assessed practical exercises and a multiple-choice exam.
- Our tutors are familiar with people who may not be at home in the classroom. If you have any issues with reading and writing, please tell us so we can support you and give you the best possible experience.

## Course duration

- 2 days

## Refresher training

- Certification will need to be renewed after 5 years

## Please bring

- Just yourself, we will provide everything you need on the day

## Publication(s)

- CITB Publication GE706 Construction Site Supervision and Toolbox talks GT700

# Site Supervisors Safety Training Scheme (SSSTS)
